CPD/23/A2/230	SCAL Academy Pte Ltd	Seminar	Mediation for Construction Industry	Upon completion of this webinar, participants will have gained a thorough understanding of the process of mediation in construction disputes and will be able to: - Understand the steps involved in resolving disputes through mediation. - Appreciate the benefits of using mediation as a means of resolving disputes. - Know what to expect from preparing for, participating in and the motivations to reach a settlement through mediation. - Learn about the considerations and reasons towards settling the disputes through mediation.	https://scal-academy.com.sg/courses/course_detail/115/4932	Online	194.40	27 Jul 2023 07 Nov 2023	27 Jul 2023 07 Nov 2023	4	4	Tan Wei Xuan	67939020	weixuan@scal-academy.com.sg
CPD/23/A1/140	Singapore University of Social Sciences	Lecture	BPM503 Project Risk Management in Construction Projects	This course aims to equip students with the essential skills and knowledge required to manage the risks in construction projects. It provides thorough discussions of the various concepts, tools and techniques involved in risk management process and applications of how these methods can empower the decision making of the project manager. Case studies of risk management in construction projects will be used to demonstrate key principles of project risk management learnt.	https://www.suss.edu.sg/course/detail/bpm503 Program Timetable: https://scalingapore-my.sharepoint.com/:x/g/person/admin_scalsingapore_onmicrosoft_com/E6ta1a7y2a0AN3Y5o3Qcy8BA6fKEjDjWajTnuqITyGz7eplDICT	Singapore University of Social Sciences, 463 Clementi Rd, Singapore 599494	2200 SSG Funded	19 Aug 2023	21 Oct 2023	30	30	Cheng Zhuoyuan	9658 1850	zycheng@suss.edu.sg
CPD/23/A1/141	Singapore University of Social Sciences	Lecture	BPM505 Collaborative Contracting in Built Environment	Collaborative contracting is a framework which allow all team members to collaborate, share information and develop solutions in line with the objectives of all parties and increase productivity. This course aims to equip students with the knowledge in contractual framework for Collaborative Contracting. It covers key principles, pros and cons of collaborative contracting. The improvement of economic and social value by having early contractor involvement and supply chain collaboration will be discussed.	https://www.suss.edu.sg/courses/detail/bpm505 Course Details: https://scalingapore-my.sharepoint.com/:x/g/person/admin_scalsingapore_onmicrosoft_com/E5TSR8FGAbJFPhMUZu5VuaB0BL54f6gT9XNz7064p7zjA7e-Np8f6x Program Timetable: https://scalingapore-my.sharepoint.com/:b/g/person/admin_scalsingapore_onmicrosoft_com/E5TSR8FGAbJFPhMUZu5VuaB0BL54f6gT9XNz7064p7zjA7e-Np8f6x	Singapore University of Social Sciences, 463 Clementi Rd, Singapore 599494	2200 SSG Funded	17 Aug 2023	19 Oct 2023	30	30	Cheng Zhuoyuan	9658 1850	zycheng@suss.edu.sg
CPD/23/A2/226	SCAL Academy Pte Ltd	Workshop	Design for Safety (DfS) for PMEs (Professional, Manager and Executive)	This course is ideal for PMEs working with developers, designers, contractors, and owners who want to know more about the WSH (DfS) Regulations. The course will cover DfS aspects of the whole life cycle of a building or structure from conceptualization, design, tender, construction, occupation, maintenance to demolition. Participants will be introduced to the "Guidelines on Design for Safety in Buildings and Structures", the "Code of Practice on WSH Risk Management" published by MOM and the WSH Council as well as the WSH (DfS) Regulations. With the current outbreak of Novel Coronavirus (NCoV), this short course is particularly beneficial as case study from a 2003 SARS outbreak in Hong Kong will be discussed.	https://scal-academy.com.sg/courses/course_detail/17/5481	Online	324.00	15 Aug 2023 19 Sep 2023 20 Nov 2023 21 Dec 2023	15 Aug 2023 19 Sep 2023 20 Nov 2023 21 Dec 2023	7.5	7.5	Tan Wei Xuan	67939020	weixuan@scal-academy.com.sg
CPD/23/A2/227	SCAL Academy Pte Ltd	Workshop	The Construction Workplace Reimagined!	We have entered the age of Industry 4.0 and Web 3.0 and with it, disruption to the business. This course explores the current and potential future impacts of new and rapidly evolving technologies on construction-related businesses and their operations. Learners will gain insights into these emerging technologies and how organisations may harness these technologies to their advantage.	https://scal-academy.com.sg/courses/course_detail/178/4332	Online	300.00	10 Oct 2023	10 Oct 2023	7	7	Tan Wei Xuan	67939020	weixuan@scal-academy.com.sg
CPD/23/A2/228	SCAL Academy Pte Ltd	Workshop	Understanding the Security of Payment (SOP) Act	Security of Payment Act (SOP act) is a crucial component of the construction industry and can impact the payment process for all parties involved. This one-day training course has been designed to provide participants with a comprehensive understanding of the act and the essential tools needed to prepare or respond to adjudication documents. The training will cover all key components of the SOP act, including payment claims, payment schedules, adjudication applications, adjudication responses, and adjudication determinations. The course will begin with an overview of the SOP act and its significance in the construction industry. Participants will then learn about the process of making and responding to payment claims, and what to do in the event of a dispute over payment. They will also be given information on how to apply for adjudication, and what changes have been made in the latest amendments to the act.	https://scal-academy.com.sg/courses/course_detail/107/4448	Online	320.00	20 Jul 2023 9 Oct 2023	20 Jul 2023 9 Oct 2023	7.5	7.5	Tan Wei Xuan	67939020	weixuan@scal-academy.com.sg
CPD/23/A2/229	SCAL Academy Pte Ltd	Workshop	Manage Demolition of Buildings and Structures	Demolition works typically involve tearing down of buildings or civil engineering structures. The improper handling of demolition works can give rise to various risks and environmental impacts. Demolition management plan should be developed to mitigate the potential risks from identified work hazards as well as the environmental impacts resulting from the demolition works. As land is scarce in Singapore, the management plan should also include the measures to reduce waste sent to the landfills and incineration plants via the reuse and recycling of demolition debris and materials. This course aims to give the participants an opportunity to learn and understand the key aspects in managing demolition of buildings and structures through careful planning, scheduling and controlling of demolition work.	https://scal-academy.com.sg/courses/course_detail/164/5410	Online	300.00	20 Jul 2023 5 Sep 2023 15 Nov 2023	20 Jul 2023 5 Sep 2023 15 Nov 2023	7	7	Tan Wei Xuan	67939020	weixuan@scal-academy.com.sg
CPD/23/A2/234	SCAL Academy Pte Ltd	Seminar	Safety in Demolition of Buildings and Civil Engineering Structures	Demolition works typically involve tearing down of buildings or civil engineering structures. The improper handling of demolition works can give rise to various risks. All potential risks from identified work hazards involved in demolition works must be duly addressed. By establishing adequate and practicable measures before and during demolition work, accidents such as the accidental collapse of any part of the building or structure can be prevented. Safety will be ensured for workers, the public and the neighbouring properties throughout the process.	https://scal-academy.com.sg/courses/course_detail/399/5500	Online	194.40	22 Aug 2023 3 Oct 2022 5 Dec 2023	22 Aug 2023 3 Oct 2022 5 Dec 2023	4	4	Tan Wei Xuan	67939020	weixuan@scal-academy.com.sg
CPD/23/A2/235	Singapore University of Social Sciences	Seminar	The Inaugural Seah Choo Meng Public Lecture Series	The Seah Choo Meng Public Lecture Series will feature eminent local and foreign thought leaders and distinguished practitioners in the built environment who will impart their insights in areas such as Project and Construction Management, the new trends of Quantity Surveying and Contract Cost Management, Building Contract Law and Practices and Adjudication, Sustainability, Environmental and Social Governance, the future of Facilities Management and the influence of Artificial Intelligence on the built environment.	https://bit.ly/SCM-23	463 Clementi Rd, Singapore 599494	Free	31 Oct 2023	31 Oct 2023	3	3	Cheng Zhuoyuan	96581850	zycheng@suss.edu.sg
