The **Singapore Manufacturing Federation (SMF)** in partnership with **Drew and Napier LLC** will be organising a Zoom webinar on “**Cyber Strategy, Legal Risk and Data Breach Management**” on **Wednesday, 15th September 2021 from 1600HR – 1800HR Singapore Time.**

This webinar will explore key strategic considerations in cybersecurity preparation and response from a practical perspective, including legal risks, developing a cyber strategy and data breach management. A good understanding of legal risks and a solid cyber security strategy are important to develop and apply defences for the IT systems in place, with an emphasis on preventing, or at least identifying and responding to, cyber-attacks and mitigating the legal risks which may arise. The presentations during this webinar will cover key legal risks which organisations should be aware of and the fundamental principles behind various cybersecurity frameworks and approaches. Attendees will gain a better consideration of the issues they may face when developing a cybersecurity strategy and responding to a data breach.

Why Cybersecurity is Important to Business

With the rapid development of the internet, data may be easily disclosed without the user's knowledge. As a result, it is important for businesses to protect themselves from data theft, fraud, and other online threats. According to research, thousands of malicious web sites are identified every day. Data breaches have compromised hundreds of millions of records in a relatively short period of time, and such breaches are difficult to recover from.

Furthermore, with the significant increase in corporate hackers over the years. Those hackers sees not only attractive financial gain offered, but more interested in discovering one's organisational username and password and gaining access to closed networks so they can control data and websites or shut down essential functions in exchange for the gain. As a result, it is essential for businesses to focus their efforts entirely on rendering all points of vulnerability inaccessible to hackers' probing eyes. This webinar will provide businesses with valuable insights into the world of technology from the perspective of cybersecurity.

Tentative Programme, Wednesday, 15th September 2021, 1600hrs to 1800hrs Singapore Time.

SG Time	Details
1600 HR	Welcome Remarks and Address by Singapore Manufacturing Federation.
1605 HR	Introduction and Opening Remarks by Lim Chong Kin , Managing Director, Corporate and Finance, Head, Telecommunications, Media and Technology, Co-Head, Competition Law & Regulatory Practice, Co-Head, Data Protection, Privacy & Cybersecurity, Co-Head, Drew Data Protection & Cybersecurity Academy of Drew & Napier LLC.
1620 HR	Presentation on Cyber Risks and the Law: Practical Implications by David N. Alfred , Co-Head, Data Protection, Privacy & Cybersecurity, Co-Head and Programme Director, Drew Data Protection & Cybersecurity Academy of Drew & Napier LLC.
1700 HR	Presentation on Developing a (Practical) Cybersecurity Strategy by Albert Pichlmaier , Senior Cybersecurity Engineer, Data Protection, Privacy & Cybersecurity Course Director (Cybersecurity), Data Protection & Cybersecurity Academy of Drew & Napier LLC.
1740 HR	Q&A Session
1800 HR	End of webinar

Speaker Biography

Lim Chong Kin
Managing Director, Corporate & Finance
Head, Telecommunications, Media & Technology
Co-Head, Competition Law & Regulatory Practice
Co-Head, Data Protection, Privacy & Cybersecurity
Co-Head, Drew Data Protection & Cybersecurity Academy
Drew & Napier LLC

About Lim Chong Kin

Managing Director of the Corporate & Finance department and co-heads the Competition Law & Regulatory Practice and Data Protection, Privacy & Cybersecurity Practice. He also heads the Telecommunications, Media and Technology (TMT) Practice. Chong Kin has consistently been recommended as a leading lawyer by major international legal publications such as The Asia Pacific Legal 500, Global Competition Review, Chambers Asia-Pacific, The Guide to the World's Leading Competition & Antitrust Lawyers/Economists, Who's Who Legal, Practical Law Company Which Lawyer?, Asialaw Leading Lawyers and Best Lawyers. He is also highly regarded by his peers, clients and rivals alike for his expertise. The practices that Chong Kin heads have also been widely recognised as leading practices in Singapore.

David Alfred
Co-Head, Data Protection, Privacy & Cybersecurity
Co-Head and Programme Director, Drew Data Protection & Cybersecurity Academy
Drew & Napier LLC

About David N. Alfred

David is Co-Head of the firm's Data Protection, Privacy and Cybersecurity Practice and Co-Head of the Drew Data Protection and Cybersecurity Academy. David is a senior data protection, cybersecurity and technology lawyer with over 20 years' experience advising on a broad range of matters relating to digital technology, telecommunications and the Internet. He has advised on both regulatory and commercial matters including matters relating to development and review of public policy, legislation, regulatory enforcement, international relations and data governance (amongst others). David is also an accomplished speaker who has spoken widely on the development of Singapore data protection law, data protection and cybersecurity governance and compliance and related issues.

Albert Pichlmaier
Senior Cybersecurity Engineer, Data Protection, Privacy & Cybersecurity
Course Director (Cybersecurity), Data Protection & Cybersecurity Academy
Drew & Napier LLC

About Albert Pichlmaier

Former Executive Manager with the PDPC, where he was involved in technology assessments for data breach investigations, research into trending/disruptive technologies and advising on technical aspects of various PDPC guidelines and publications (amongst other matters). He is a Certified Information Systems Security Professional (CISSP), a Certified Data Privacy Solutions Engineer (CDPSE), and a Certified Blockchain Developer. Albert is also credited as the inventor of two patents granted in Germany and other countries. Albert's technical expertise provides Drew & Napier and its clients with a unique perspective on matters involving Cybersecurity, Artificial Intelligence, Blockchain Development, Data Analytics, Big Data and Data Visualisation, amongst others.
