

SCAL PRODUCTIVITY & TECHNOLOGY WEEK 2026

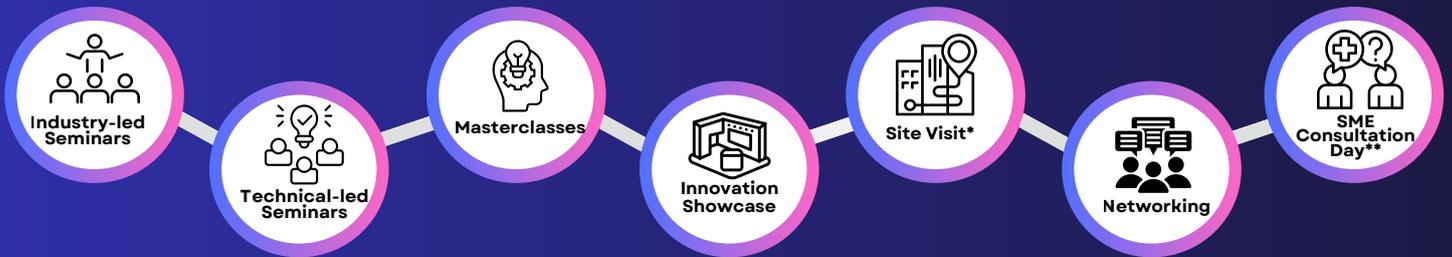

MAIN CONTRACTORS' GUIDE

If you are a main contractor looking to improve productivity, strengthen project coordination and explore new technologies, SCAL Productivity & Technology (P&T) Week offers a valuable week of learning and industry engagement.

This guide highlights the key seminars, masterclasses, technology showcases and networking opportunities most relevant to main contractors.

Explore practical solutions, hear real project experiences and discover tools that can help you deliver projects more efficiently and stay competitive in a rapidly evolving construction landscape.

23 - 27 March 2026 SCAL Construction Hub www.scal.com.sg/pnt-week-2026

*for SCAL members only

EXPLORE

23 - 25 March 2026 9am - 5pm

Discover innovative companies showcasing construction technologies, digital tools, and productivity solutions designed to improve project efficiency and site operations.

Hear directly from contractors sharing their experiences and insights at the technical seminars, and explore practical solutions that can be implemented directly on your projects.

LEARN

CORENET X & Digital Transformation

 23 March 2026  9.30am

Singapore's built environment sector is moving towards a fully integrated digital regulatory platform with CORENET X.

In this session happening on 23 March, contractors will share their experiences working with CORENET X and how it is shaping regulatory submissions and project collaboration. A fireside chat will also give participants the opportunity to ask questions and gain practical insights on what this transition means for main contractors.

SCAL PIA Winner Sharing

 23 March 2026  2.30pm

Learn from SCAL Productivity & Innovation Awards winners as they share real project case studies and lessons from implementing productivity and innovation solutions.
